

Gabriel Barragan

Education

McGill University

Candidate for MSc Applied Biotechnology

Start Date: September 2015

Instituto Tecnológico de Monterrey

B.S. in Biotechnology Engineering

2013

Experience

Undergraduate Research Assistant | ITESM

Helped to write the theoretical background for a research project: Expression of Dopa-decarboxylase Enzyme in *Pichia pastoris* for the Production of Serotonin.

Led several students during the course of the project.

Learned several Molecular Biology techniques: RNA isolation, DNA quantitation, Reverse Transcriptase PCR.

Managed summer interns and taught basic laboratory procedures.

Translator | CancerQuest

Translated several articles related to cancer biology and treatment.
